Jimele Food Provedore

Dear Valued Customer,

For those of you that haven't heard we recently experienced a supply issue due to Australian quarantine laws, with our Delifrance range of Vienoiserie items. The batch of goods we had on the water ready to supply was made using milk from Croatia.

Unfortunately, this particular country is on the banned dairy list for import into Australia.

We have now sourced a range of butter croissants, pain au chocolat and pain au raisin of comparable quality and price from France.

We also have a full range of pastry from Le Rose Noire.

Talk to your territory manager today about how we can assist to bring the best Vienoiserie offering to you available.

Alternatively, call our customer service team on 3808 2037 or info@jimele.com.au.
